

Chip Wood • Leafy Branches • Straw and even Vegetables with **ohashi** Chippers

Green Shark Chipper Shredder

GS220G

Applicable materials

■ Wood (with branches and leaves)

■ Bamboo (with branches and leaves)

Able to chip wood 150mm in diameter

Optional Attachment

- "Side Shooter"
Output from the side of the chipping machine
- "Screen"
Various types for fine and uniform chips

Safety Design

- Emergency stop button attached
- Easy change from forward feeding to backward feeding with a lever
- Security of reverse operation (Pressure prevention function)

Able to adjust chipping size (2-11 mm)

Energy-saving operation with twig chipping mode

360° turn

Hang at 2 points

Maintenance

- Easy change of chipper knives and fixed knives
- Easy and smooth pouring of grease

Powerful crush with 22 horsepower engine

Specifications

	Factor	Description		Factor	Description
Total	Model	Chipper Shredder GS220G	Chipping	Drive system	Belt clutch, V belt
	Weight	1795 × 1060 × 1730 mm		Max. chipping dia.	150 mm
	Total Weight	680 kg		Hopper size	600 × 530 mm
Power	Engine	Robin Engine EH65DS		Output	Air-carrying type
	Rated Output	22.0 (16.0) ps(kw)		Output height	1730 mm
	Fuel	Automobile gasoline (JIS K2204)		Turning angle	360° (all turn around)
	Fuel Tank	15 L		Output angle	Variable
	Fuel Consumption	5.8 L/h			
Drive	Drive type	Self-propelled crawler type			
	Speed	F1:0.7 km/h F2:1.3 km/h R:0.6km/h

Full optional equipments

Convenient attachment
for various uses.

"Dust Collector B-MY-150XN-50/60 · B-MY-150XN-EG" Efficient collecting of chips.

Engine mounted type

- **Able to collect powder chips efficiently**
Smooth packing of processed chips with dust collector, item sold separately, attached to the side of the chipping machine.
- **Convenient for chips use**
Very useful for fermentation of bamboo chips, by getting the powder chips into a vinyl bag.
- **Easy to take off the upper bag/lower bag**
- **Motor type and Engine mounted type available**
※Screen can be used in combination (size : 6mm, 12mm and 20mm)
Can not be used in combination with the upper duct.

"Side Shooter" output : horizontal direction

- **Convenient to use at lower places such as an orchard**

- ※Can use screen in combination. (size: 6mm, 12mm)
- ※Can not be used in combination with the upper duct.

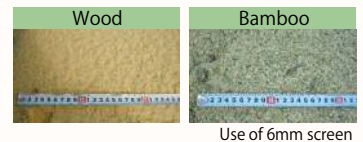

"Screen" easy adjustment of chipping size Size : 6 · 12 · 20mm

Can be used with Dust Collector, Side shooter and Screen in combination. (Side shooter size : only 12mm, 20mm)

- **Able to adjust chipping size**
Fine and uniform chips can be processed by using screen attached to the duct at the side of the chipping machine. Screen can be easily attached.
- **Uses**
Pellet / Bedding / Compost

Use of 6mm screen

Cyclone "DC450"

- **Fewer fine dust when discharged.**
Discharge of fine dust can be a trouble on chipping sites. Dust is decreased when the cyclone option is used.
- **Easy removal/ attach of the cyclone.**
- **Chips can be directly discharged into a large bag.**
- **Easy change of large bags.**
※Can not be used with Dust collector, Side shooter and Screen in combination. Flexible containers are not included.
